11.0M RAFNAR

8.3M FAST TENDER

12.3M GUEST TENDER

8.3M MULTI-P TENDER

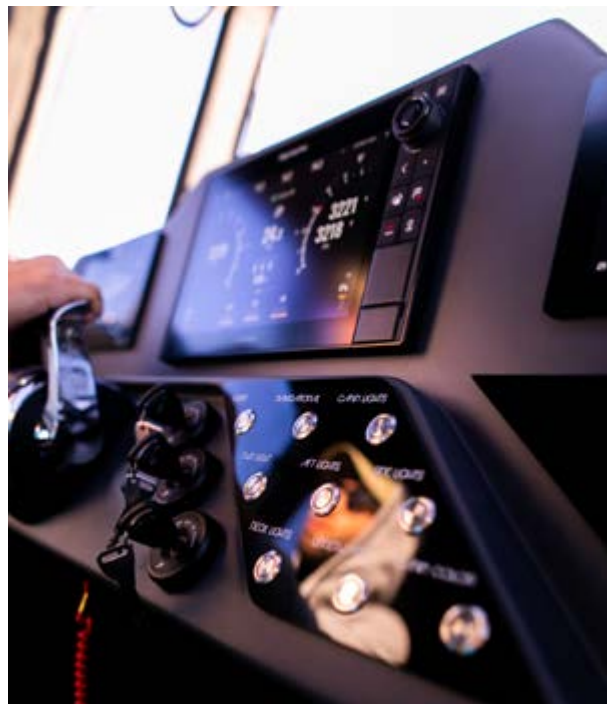

4.8M NARVAL SOLAS

PROVEN RELIABILITY & PERFORMANCE

11.0M RAFNAR

THE RAFNAR RANGE ENSURES GREAT SEAKEEPING, UNPARALLELED SAFETY AND COMFORT-AT-SEA IN THE MOST EXTREME CONDITIONS.

The Rafnar range of crafts, developed from the revolutionary 'ÖK Hull & Keel Technology', ensures seakeeping, safety, and comfort-at-sea in the most extreme maritime environments.

The Rafnar 1100 is ideally suited for passenger transportation, recreation and adventure on the water, longer distance exploration voyages in often changeable and difficult conditions, and for performing observer or chase-boat duties at regatta events. With three powerful outboard engines driving this exceptionally stable craft at speeds in excess of 40 knots, the Rafnar 1100 Leisure is a 'get there fast - in safety and comfort' vessel, even in uncomfortable and changing sea conditions.

| Fuel capacity | 3x 300 L |
| Passenger capacity | 12 people |
| CE classification | C |
| Construction | Vinylester Vacuum infused |
| Engineering & manufacturing | RAFNAR |

ÖK HULL

With dramatic decrease in slamming impact up to 95% it directly affects wellbeing and safety on board. Minimized risk of injury or seasickness, and the ability to return operation-ready and safe to shore in severe weather conditions, are the primary reasons why professionals and leisure owners choose Rafnar, and what truly sets Rafnar apart from the competition.

PERFORMANCE & VERSATILITY

8.3M FAST TENDER

DO YOU NEED A TENDER FOR THE SEASON?
SHORT AND LONG TERM RENTAL POSSIBILITIES AVAILABLE

This lightweight yet strong tender allows for fast and safe transfer of provisions and guests.

Lightweight construction in carbon fibre is the key to tenders responsive handling and 40 knot top speed.

A fresh white finish contributes to this tenders practicality whilst the four shock-mitigating seats upholstered in orange hint improve comfort of the passengers during high impacts. The large centre console provides ample storage for toys and equipment.

SPECIFICATIONS

| | |
|--|-----------------------|

- o Anchor
- o Fenders
- o Navigation lighting
- o Shore power connection
- o battery charger
- o Bilge pump system
- o Hydraulic steering

SIZE MATTERS

12.3m GUEST TENDER

LARGE TENDERS THAT ARE BASED ON XTENDERS' WIDE HULL ARE CHARACTERIZED BY UNMATCHED STABILITY, EFFORTLESS NAVIGATION AND A DRY RIDE.

This Xtenders 12.3m Chase Vessel is a perfect multifunctional tender for any super yacht.

Running in the roughest weather conditions the tender will still provide a comfortable transfer for the guests. Her sleek lines and light, fresh interior will certainly turn heads!

The tender is made using the most advanced composite technology based on the pre-preg carbon fiber cured in autoclave maximizing the stiffness and strength of the hull. Due to her scalloped hull design and long waterline she is highly stable and dry.

Her full refit in the beginning of 2018 moreover included an engine change, plus the installment of double fridges and a full-option sun awning system. Her large storage areas can fit luggage and provisions for longer journeys and active day trips and towing operations are made easy as she comes equipped with a towing bridle.

SPECIFICATIONS

| | |
|--|-----------------------|

INFLATBLE YET RIGID

8.3M MULTI-PURPOSE TENDER

THE TENDER SOLUTION FOR EVERY YACHT.

The tender is meant to facilitate a wide variety of water sport activities such as diving and kitesurfing in the most remote regions of the globe. Two shock mitigating seats located ahead of the 230 horsepower engine soften the ride when the tender is travelling at an eye wateringly quick top speed of 36+ knots.

This tender is very robustly designed with remote and adventurous operating locations. By installing a jet drive we were able to minimize the tender’s draft whilst maximizing its operating area.
